

LTI Advantage LMS Integration Enhancements Guide

The new **LTI Advantage LMS Integration** available for McGraw Hill Connect includes enhancements that will make your course even easier to use this coming term.

- **Better security with the LTI standard**

Know that your LMS and Connect course are securely linked and that your students' information is secure with IMS Global's latest and most rigorous integration standard, LTI Advantage (LTIA).

- **Easier section pairing process**

Find the Connect section you want to use and get your courses linked correctly the first time.

- **Automatic account creation for new users**

Easily create a new account without the hassle of filling out a form and/or waiting for an admin to approve it.

- **Deploy 0-point assignment without creating a gradebook column in the LMS**

No more hassle with organizing your LMS gradebook to hide 0-point assignments.

- **Automatically send 0s to the LMS gradebook after due date passes**

No more struggling to update your LMS gradebook. The new LTI Advantage grade sync includes incompletes after the due date, making the overall grade more accurate.

- **Improved visibility into grade sync failures and ability to resync grades at student and assignment level**

Identify and fix grade sync issues quickly and easily so you can solve issues before your students see them.

- **Automatic relinking for copied/duplicated/shared sections**

Easily relink your copied or duplicated Connect section with your Blackboard course.
